

# **SOCA PARKING**

## **Handicap Parking**

Please remember that handicap parking spaces in our community are reserved for the benefit of disabled residents and their guests. Please display your handicap tag if you use a handicap space. Also, remember to consult the parking rules of your condo association for additional guidelines.

## **Parking During Snow Events**

In an attempt to keep our roads clear during snow storms, we are asking residents to help us. During any snow event, please DO NOT park your vehicles on the outbound [clubhouse and Kendall I] side of Dried Earth Blvd. Parking will only be available on the inbound [Villas I and II] side of Dried Earth. This is especially important for our Snowbirds who leave the cold weather and go south. Please plan ahead by moving your cars from the outbound side to the inbound side of Dried Earth. Vehicles left on outbound side of Dried Earth will be plowed in!
